Rear view camera with auto shutter
Rear view camera with auto shutter. Projects the lens against dirt. Rear view camera is adaptable to the 7" LED DUX monitor (2145/21).

	Part no.
Cable 20 m for 1903597	1903516
Junction box	1903617
Rear view camera	1903597

Rear view camera with cleaning mechanism
This rear view camera has an automatic self-cleaning mechanism. Thus, the camera will be well protected during driving and provides clear, real-time images to the driver, regardless of the weather or working conditions. The camera is only activated when reverse driving.

Rear view camera with guidelines
The rear view camera mirror with guidelines is dedicated to the Scania Premium radio. This is an ultimate rear view camera with several advantages. It has integrated reversing guidelines to better estimate distances, a safety ticker to detect frozen images, freeze corrected images to present better distance indication and also a standard MIRROR mode, which is recommended for rear view in combination with the Scania Premium Radio.
