

Customized switches

Scania offers the possibility of ordering directly connected switches with custom-designed symbols. Ordering is done through Scania's dealers.

Ordering directly connected switches with custom-designed symbols:

- Specify the part number for the basic switches from the tables in the next page
- Specify the required functionality from the basic range in the following tables ([Symbol lists](#))
- If the switch is to have a symbol of your own design, send request including an illustration or drawing of the required symbol. Avoid using text in the design (more information in document [Switches](#))
- For switches with more than 1 symbol, specify which symbol should be in the upper, centre and lower positions when ordering (see picture for maximum symbol size)

- A. Upper position for symbol
 - B. Centre position for symbol
 - C. Lower position for symbol
- Dimension in mm

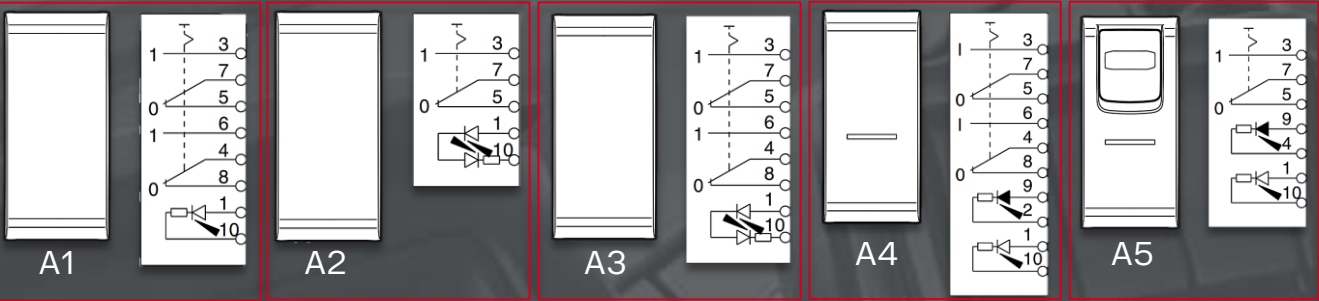

Customized switches

Pos.	Designation	Part number
------	-------------	-------------

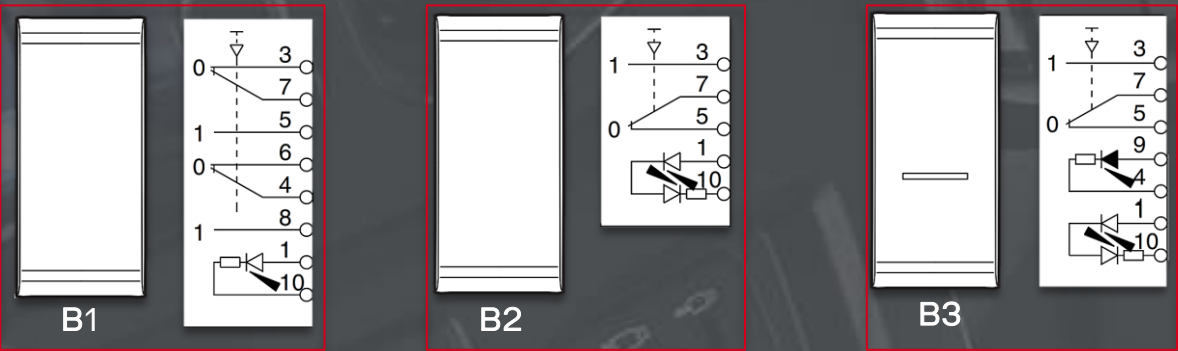

Switches

Switch with keytop on which symbols can be engraved by laser, with two fixed positions

A1	Number of symbols: 1	2332769
A2	Number of symbols: 2	2332765
A3	Number of symbols: 2	2332796
A4	Number of symbols: 1 Indicator lamp: With	2335729
A5	Number of symbols: 1 Indicator lamp: With Catch: With	2485162

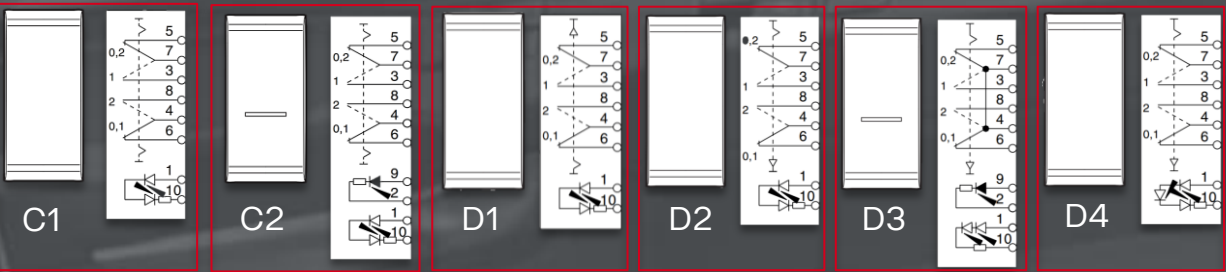

Switch with keytop on which symbols can be engraved by laser, with one spring-loaded position and one fixed position

B1	Number of symbols: 1	2332794
B2	Number of symbols: 2	2092009
B3	Number of symbols: 2 Indicator lamp: With	2092010

Pos.	Designation	Part number
------	-------------	-------------

Switches

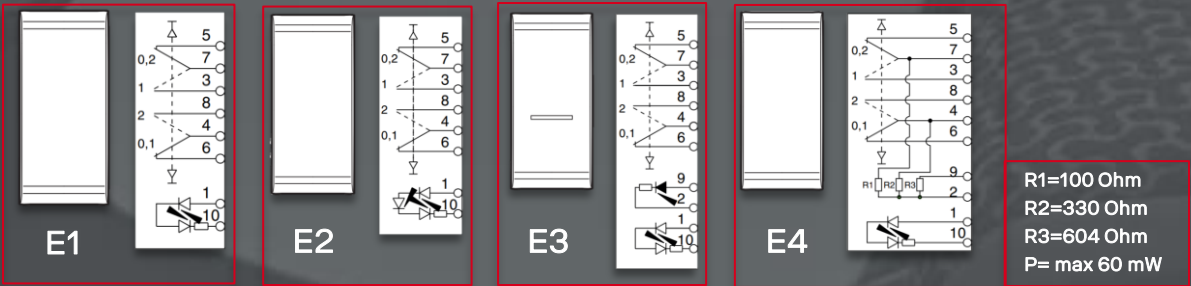

Switch with keytop on which symbols can be engraved by laser, with three fixed positions

C1	Number of symbols: 2	2332769
C2	Number of symbols: 2 Indicator lamp: With	2332765

Switch with keytop on which symbols can be engraved by laser, with two fixed positions and one spring-loaded position

D1	Number of symbols: 2	2332793
D2	Number of symbols: 2	2332771
D3	Number of symbols: 2 Indicator lamp: With	2332772
D4	Number of symbols: 3	2335730

Switch with keytop on which symbols can be engraved by laser, with two spring-loaded positions and one fixed position

E1	Number of symbols: 2	2087163
E2	Number of symbols: 2 Indicator lamp: With	2332767
E3	Number of symbols: 3	2332768
E4	Number of symbols: 2	2332795
